The magic of Sikkim

One of the last utopias of the world - Sikkim is a hidden gem and arguably one of the loveliest destinations of India. It is a virtual pot-pourri of ethnic composition, ancient cultures, blooming rhododendrons, deep valleys and mountains that have to yet be explored or named.

From atmospheric Buddhist monasteries of west Sikkim to monumental religious statues in South Sikkim, friendly and cheerful urban centres in the east to the stunning views of Kanchenjunga, the world's third highest mountain (8598m), visible from almost any viewpoint in the state. Set amidst this primeval backdrop of mighty mountains and rustic villages is the setting of the Kanchenjunga Marathon -
